1844

Dear Sir,

Mr. Power met me at the Prothonotary's office this morning & told me that Murphy had offered to give you an order for $50 and his note for the balance of his indebtedness to the Church at four months. It is my opinion that we had had better accept this offer, if it is not more too late; for, as I told you yesterday, the Court of Common Pleas does not favor any actions against the County and will probably put whatever difficulties in our way. It seems to me that if the Committee was aware of the little favor with which the Court regards such actions as ours, they would make no difficulty towards compromising this matter; & think that this would be the wiser course. Mr Power will call at my office to morrow morning between 9 & 10; in the

In the mean time you will oblige me by letting me know your decision with respect to the premises.

Yours Respectfully

R. R. Montgomery

Dear Sir

A few days since an enquiry of you what report I could make to Vestry relative to the Ejectment Suit, directed by Vestry in December to be forthwith commenced against Robt. Remington for encroaching by his building on the Church burial Ground, you informed me the suit had not been commenced, and you wanted to see me, to know the depth of the Lot, and if it was bounded on the East by Mrs Twells Lot and you wanted it in Writing — I have looked over the title papers and enclose a list, I do not find the Deed from Dobbins to the Church, nor the Ground Rent Deed from the Church to E. Burgh but presume the two latter is with you

If it is necessary to give a minute description of the bounds to be in Commencing the suit I beg you will not depend on my relation but will consent the Vestry employ a proper person to attend to all this matter for you, and also to hunt up the evidence, and get it in proper form to take their depositions to preserve the evidence if undue delay that may die, I am not competent for those matters & much fear my frequent Vestry must be troublesome

Dear Sir

I beg you to assure the Vestry of Christ Church, of our thanks for the use we have so long enjoyed of the pew appropriated to the family of the Bishop of the Diocese. We have always regarded its use as a very welcome privilege, & one giving us the highest satisfaction, during the period we have occupied it.

Very respectfully

We have been waiting under the expectation
you and Mr Williams would have paid
the amount, for any legal proceedings would have
a tendency to work an injury to both of you
beyond the new many Gratuity

By directions of the Committee of Vestry having the
care of this property, I laid the whole matter
before Wm M Meredith Esq who after a careful
examination advised immediate legal proceedings,
but first that you be informed of that determination
and your name good sense will prevent your
permitting any suit by your paying the Money
in Conformity with that advice I now write
you, and request your attention to the matter
this week, and save the trouble of carrying

Sir

I have received your note of the 18 Instant and from it conclude that you must be particularly fond of Law Suits. I have only to say you shall be gratified, and that I shall hold myself in readiness to obey your Summons;

I consider it proper to inform you that immediately after, I shall according to advice institute legal proceedings against you, for holding certain papers and annoying me with them.

The Committee of Vestry I know nothing of. My business is with you.
